

AMENDMENTS TO THE SPECIFICATION

Please amend the first and the second paragraphs of page 1 of the original specification as follows:

The present invention relates to a method ~~as defined in the preamble of claim 1~~ for storing loads, especially cylindrical objects, such as paper rolls, in a storage where the loads are brought in and stored and from where the loads are taken out by means of a load manipulating device for further processing.

The invention also relates to an apparatus ~~as defined in the preamble of claim 6~~ for storing loads, especially cylindrical objects, such as paper rolls, in a storage where the loads are brought in and stored and from where the loads are taken out by means of a load manipulating device for further processing.
